

# **District Quality Solar Generator**

## Overview

---

The capacity is measured in watt hours, and determines how long your generator can power various devices on one charge. A higher battery capacity will directly impact the cost of the generator, as large lithium batteries cost a lot more. If you're after a solar generator to keep your laptop or smartphone going during a.

Solar generators come with a number of plugs and ports so you can power a range of devices at once. Most come with a variety of USB ports for charging smaller devices such as.

While solar generators are recharged by the sun, most can also be charged using an AC wall outlet and a carport. It's highly unlikely that a solar panel.

If you're taking your solar generator on the go, a portable design is essential. Solar generators are often taken to remote locations, so a compact and lightweight design will add to the.
