## Overview

---

Is dmevc solar a good solar system?

DMEGC Solar won in fact five-star “VERY GOOD” ratings, proving once again its outstanding performance and reliability. The test was conducted by the German media PV Magazine, which is well-known in the PV industry for its rigorous evaluation system and fair reporting.

Is dmevc solar ready for full-scale production?

DONGYANG, China, Sept. 4, 2023 /PRNewswire/ -- DMEGC Solar recently celebrated a significant milestone with its first 5GW high-efficiency solar module coming off the production line at Lianyungang manufacturing base, marking the base's transition into full-scale production.

Is dmevc solar a good RT module?

DMEGC Solar’s Infinity RT Module achieved excellent results in a recent “PV Magazine Module Test”. DMEGC Solar won in fact five-star “VERY GOOD” ratings, proving once again its outstanding performance and reliability.

When did dmevc solar start production?

Construction of the Lianyungang base commenced in April 2023, and achieved its first product rollout and commenced mass production within just four months, a testament to the operational efficiency DMEGC is renowned for. With the start-up of the Lianyungang base, DMEGC Solar's module production capacity reached to 12GW.

How big is dmevc solar?

Presently, the grid-tied PV capacity at the DMEGC Solar manufacturing hub stands at 51.46 MW, delivering a self-consumption electricity tally of 22.28 GWh. Concurrently, there's an agenda to establish an added 44MW of rooftop PV installations in strategic locations such as Sihong, Lianyungang, and Yibin.

Who is dmegec solar?

As a Tier 1 solar manufacturer, DMEGC Solar's full-service of residential, C&I and utility solutions offer unprecedented value, reliability, and support to project partners.
