

Dual sensor interconnected smoke alarm with 10-year lithium battery

Overview

How does a 10 year battery dual sensor smoke alarm work?

The sensors work together to equip your home with comprehensive smoke and fire detection. By using both photoelectric and ionization technology, this 10-Year Battery Dual Sensor Smoke Alarm can help provide the earliest possible warning, regardless of the type of fire.

What happened to the First Alert ® hardwired dual sensor smoke alarm?

This product is no longer available for sale. The First Alert® Hardwired Dual Sensor Smoke Alarm with Battery Backup is designed to provide peace of mind. The photoelectric and ionization sensors alert you to both smoldering and fast-flaming fires, offering comprehensive detection and early warning.

What is a dual sensor smoke alarm?

The First Alert 10-Year Battery Dual Sensor Alarm is fully equipped with a range of features that can make it the ideal choice for your home. Learn more about what a dual sensor smoke alarm is and the highlighted features of this fire detector. Dual Sensor There are three basic types of home smoke alarms: photoelectric, ionization, and dual sensor.

How often should a dual sensor smoke alarm be replaced?

10-Year Sealed Battery With a built-in, sealed 10-year lithium-ion battery, the dual sensor smoke alarm does not require battery replacements during the life of the alarm. It also has an end-of-life warning that will sound when it's time to replace the fire alarm. All smoke alarms should be replaced at least every 10 years and tested regularly.

How does the First Alert Dual-Sensor smoke and fire alarm work?

Intelligent Sensing Technology in the First Alert Dual-Sensor Smoke and Fire Alarm is designed to distinguish between real fires and nuisances, reducing false alarms significantly so there is never a need to disable the alarm. This

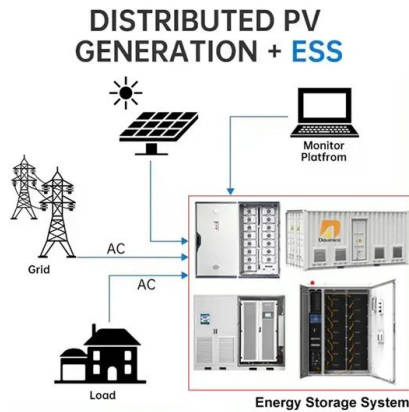

smoke and fire alarm is powered by ten year sealed lithium batteries.

Does a hardwire smoke alarm have a backup battery?

Backup Battery Provides Continuous Protection In the event of a power outage, the hardwire smoke alarm is equipped with a 10-year battery backup for continued protection. The 10-year backup battery means no battery replacements are necessary for the life of the detector - eliminating low battery chirps and the hassle of replacing the batteries.
