

Dupont photovoltaic solutions

Overview

Who is DuPont photovoltaic solutions?

DuPont Photovoltaic Solutions stands alone as the pioneer in our industry with over 40 years of commitment to continuous innovation has transformed solar into a viable commercial energy source for the new energy economy.

Why should you choose DuPont photovoltaic solutions?

That all changed when DuPont Photovoltaic Solutions stepped in. We provided a solar solution that not only brought the people of Ladakh reliable, cost-effective, and safe energy, but it will also stand up to the area's harsh climate all year round for many years to come. China is facing a critical moment in its energy future.

How can DuPont help China's soaring solar energy industry?

Through the collaborative partnership between the Chinese government and DuPont, our PV solutions promote the sustainable development of China's soaring solar energy industry. This carbon-neutral city has its own solar farm and consumes only 40% of the energy it produces.

Who is DuPont's Global Business Director?

Dr. Xu repatriated to the U.S. in 2013 as the Global Business Director of the DuPont Photovoltaic Solutions business, the world's largest non-silicon PV materials provider enabling exponential growth of the \$100B+ solar PV industry.

Why should you choose DuPont Tedlar® PVF film-based backsheets?

Using inferior materials may seem cost-effective initially, but can lead to unexpected and potentially catastrophic failures. DuPont™ Tedlar® PVF film-based backsheets offer more than 30 years of proven, protective performance and a history of reducing overall system cost.

Why should you choose DuPont® solamet® & fortasun® encapsulants?

DuPont™ Solamet® continues to set new standards for efficiency. Solamet® is the first choice for customers who seek to continually improve solar cell and panel efficiencies, to ultimately reduce costs. Fortasun™ brand silicone encapsulants provide solar modules excellent durability and protection against corrosion and delamination.

DuPont photovoltaic solutions

DuPont Partners with World's Leading PV Companies for a Shared Green

Cooperation Agreement Signings at First China International Import Expo (CIIE) Reaffirm 40+ Year Commitment to Renewable Energy and Sustainable Development SHANGHAI, Nov. 6, 2018 -- At the first China International Import Expo (CIIE), DuPont Photovoltaic and Advanced Materials, a business unit of DuPont Electronics & Imaging, is showcasing the ...

Backsheet Stress Testing Engineering Report , DuPont Photovoltaic Solutions

Global advisory and certification services provider DNV GL recently conducted an independent test examining the reliability of commercial PV modules made with PVDF, PET and PVF based backsheets.

VIDEO: Reliable Solar Power in India , DuPont Photovoltaic Solutions

In partnership with Moser Baer, DuPont helped design solar panels that provide reliable solar power to remote villages in northern India. Up until 2012, the Ladakh region of northern India received limited electricity from diesel generators. DuPont and Moser Baer

DuPont Photovoltaic Solutions Media Resources

Access leadership biographies, media information, and additional content from DuPont Photovoltaic Solutions. DuPont Publishes 2020 Global PV Reliability Report DuPont introduces an expanded portfolio of products including a new generation of Solamet® metallization pastes, innovative clear Tedlar® backsheet materials as well as Fortasun solar silicones at SNEC.

Technical Resources Library , DuPont Photovoltaic Solutions

It takes place annually and has a focus on the areas of photovoltaics, PV production and solar thermal technologies. Since 2019, Intersolar India is held under the umbrella of The smarter E India - India's innovation hub for the new energy world.

DuPont Publishes 2020 Global PV Reliability Report

DuPont Photovoltaic and Advanced Materials (PVAM) represents a portfolio of product solutions with over 40+ years of service to the solar, aerospace, automotive industries and many others. Our products deliver proven power and lasting value for the fast-growing photovoltaics sector, including DuPont(TM) Solamet® metallization pastes, DuPont(TM)

Tedlar® ...

DuPont Photovoltaic Solutions , Leadership Team

Dr. Xu acts as VPGM of DuPont Photovoltaic and Advanced Materials (PVAM) business unit providing materials solutions for solar energy, aircraft, automotive, telecom and the consumer electronics industries, in addition to leading ...

DuPont Photovoltaic Solutions

DuPont Photovoltaic Solutions represents a portfolio of products for the solar industry with over 40 years of service that delivers proven power and lasting value for the fast-growing

DuPont Photovoltaic Solutions Collaboration with Desert Technologies

Focus on Photovoltaic Materials Selection & Downstream Collaboration GENEVA, Switzerland, September 19, 2017 - DuPont announced it has entered into a marketing cooperation agreement with Desert Technologies, a solar panel manufacturer, project

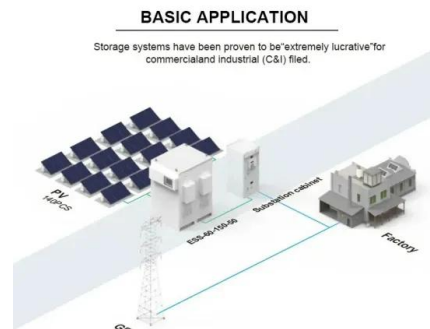

Photovoltaic Solutions

Dupont Photovoltaic Solutions has spent the past 40 years developing, refining, and standardizing accelerated testing protocols that correlate to long-term field performance. By using proven materials and adopting MAST standards, failures and loss are minimized, but lasting value is ensured, day after day.

Energy Industry Solutions

From renewable energy sources like photovoltaics, wind, biofuels, and fuel cells to the application of advanced materials making the exploration, production, and transportation of oil and gas more efficient, our products and services help provide better performance

Improving Industry Standards For PV Module Testing , DuPont

DuPont is helping lead the industry call to adopt new standards for PV module testing to help reduce solar panel degradation and backsheet failures. MENU Photovoltaic Solutions

DuPont Photovoltaic Solutions Highlights Solar Innovations, Shares

DuPont Photovoltaic Solutions is the leading supplier of specialty materials to the solar energy industry. Since 1975 more than half of the world's 900 million installed solar panels contain DuPont materials. The DPVS portfolio, including Solamet® photovoltaic

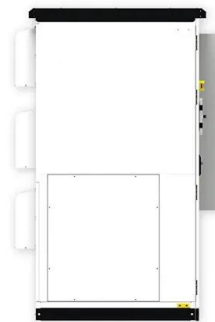

News and Media All

As an industry leader in solar solutions that delivers proven power and lasting value for the industry, DuPont Photovoltaic Solutions (DuPont) is highlighting a bigger portfolio of innovative PV materials as well as customer collaborations at booth 3.109, Hall 3, at 2018

DuPont Photovoltaic Solutions Highlights New Material Advances ...

DuPont continues to deliver innovative materials that help make solar cells more efficient, and solar panels more powerful and profitable long term Innovations Push the Boundaries of Solar Panel Performance SHANGHAI, April 27, 2015 - DuPont Photovoltaic Solutions (DuPont) is highlighting new advanced materials designed to improve the power ...

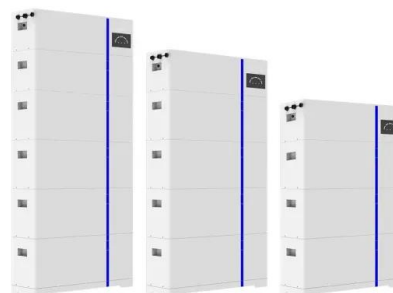

PV Silicone Encapsulants

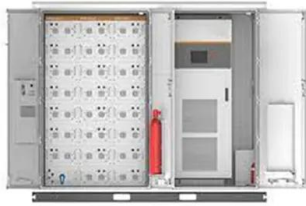

JAPAN, Feb. 24, 2015 - DuPont Photovoltaic Solutions (DuPont) and TSEC Corporation (TSEC), will showcase TSEC's newest "V-Series" high-efficiency solar panels for the first time during PV EXPO 2015 in Tokyo, Japan, from Feb. 25 - 27.
