

ESS container tender price in Vietnam 2025

Overview

How a Bess project is promoting energy storage in Vietnam?

Encouraging domestic enterprises to invest in new technologies will promote the growth of the energy storage industry in Vietnam. Investment in BESS projects in Vietnam is attracting the attention of international partners due to the country's strong potential for RE development.

How can international investors support re & Bess projects in Vietnam?

International capital: International financial institutions, such as the World Bank, the Asian Development Bank (ADB) and green investment funds, are ready to provide financial support for RE and BESS projects in Vietnam. International investors can leverage these funding sources to mitigate financial risks.

Does Vietnam have a Bess market?

Currently, the BESS market in Vietnam is nascent, with significant limitations in terms of technical expertise and infrastructure. As at November 2024, Vietnam had only three pilot BESS projects: one at Power Engineering Consulting Joint Stock Company 2 (PECC2), another at VinFast and a third at Kehua Digital Energy in Khanh Hoa.

How are re and Bess projects funded in Vietnam?

FIGURE 18. Domestic funding and capital sources for RE and BESS projects in Vietnam such as Vietcombank, BIDV and VietinBank, provide concessional loans for RE projects, often backed by government guarantees or support.

Is Vietnam accelerating the development of re and Bess?

A detailed BESS analysis shows that Vietnam is accelerating the development of RE combined with BESSs to optimise energy use and ensure the stability of the power grid. The government has issued policies to encourage BESS deployment, as outlined in the PDP VIII, with the goal of developing a storage

capacity of 300 MW by 2030.

Can Bess be made in Vietnam?

The capability to manufacture BESS components and equipment in Vietnam is starting to be developed, with some local companies participating in the production of components. This not only helps reduce import costs but also strengthens self-sufficiency in the energy technology sector.
