

Egypt solar panel price

Overview

The upfront cost of solar panels in Egypt can vary depending on the size of the system and the specific needs of the property. A typical 5 kWh solar system, suitable for an average household, can cost around EGP 65,000, while a larger 10 kWh system may cost up to EGP 140,000. How much does a solar system cost in Egypt?

A solar unit able to produce enough power for a family of five costs roughly 65,000 pounds, says Wael al-Nashar, chair of Onera Systems, which installs rooftop units. "Such figures are beyond most Egyptians," he says. A weakening local currency puts imported units even further out of reach.

How much solar energy does Egypt get?

However, Egypt is located in the sun belt of the earth, thereby receiving abundant solar energy that can be usefully harnessed with an annual average of direct solar radiation of about 2000-3200 kWh/m²/year (Figure 1). The daily average amount of sunshine hours all over the country is about 9-11 hours. .

Where are solar panels located in Egypt?

On one of these large farms, in striking contrast to the ancient, wind-shaped sandstone in the background, solar panels stand in neat rows. Here at the center of the largest hyper-arid region on earth, KarmSolar, a three-year-old Egyptian solar energy start-up company, has built its headquarters.

How many rooftop solar units have been installed in Egypt?

Yet eight years later only a paltry 749 rooftop solar units have been installed. Ayman al-Nahas, a 58-year-old teacher in a village north of Cairo, leapt at the chance to reduce what he called "panic-provoking" electricity bills of about 5,000 Egyptian pounds (\$260) a month on an apartment building and workshop he owns.

How much does electricity cost in Egypt?

Electricity consumers in Egypt pay \$0.032 per kilowatt-hour (kWh). US and European consumers, on the other hand, pay \$0.23 and \$0.30 per kWh, indicating that electricity tariffs in Egypt are significantly lower than those in the US and the EU.

How big is the Egypt solar photovoltaic (PV) market?

The Egypt Solar Photovoltaic (PV) Market size is expected to grow from 2,300 MW in 2023 to 3,546.96 MW by 2028, registering a CAGR of 9.05% during the forecast period (2023-2028).
