Overview

What is a battery energy storage system (BESS)?

By definition, a Battery Energy Storage Systems (BESS) is a type of energy storage solution, a collection of large batteries within a container, that can store and discharge electrical energy upon request.

What is a battery energy storage system?

Our Battery Energy Storage Systems are designed for both outdoor and indoor locations, tailored to meet the needs of small and medium enterprises or industrial sites. We offer a versatile range of solutions, including both first-life and second-life battery cabinets for sustainable energy management.

How do I store my energy in a turnkey system?

Store your energy in a turnkey system consisting of a fully equipped outdoor battery cabinet and bidirectional inverter. Reliability and safety are assured with our Battery Services. The Monitoring and Capacity Guarantee services ensure the proper functioning of the system, while the Optimal Control service maximizes the value of the entire system.

Is energy storage the missing piece of the energy transition puzzle?

We believe that energy storage is the missing piece of the energy transition puzzle. As the energy industry warms up to this technology, utilities, developers and power producers across the globe are faced with the critical challenge of finding the right energy storage partner.
