

# **Energy storage integrated system shipment ranking**

## Overview

---

The top 5 companies shipping the most in 2023 remained CATL, BYD, EVE Energy, REPT BATTERO, and Hithium. CATL led with shipments exceeding 70 GWh. Which energy storage system integrators are on the rise in 2023?

While XYZ Storage and Envision tied at third place, stated the report. For Europe, energy storage system integrator market concentration was on the rise in 2023, compared with the relatively fragmented situation in 2022. The top three players, Nidec, Tesla and BYD, accounted for 68% of the European market share in 2023, increasing by 26% YoY.

How are energy storage companies rated?

These companies are rated on 12 criteria: vision; go-to-market strategy; partners; production strategy; technology; geographic reach; sales, marketing, and distribution; product performance; product quality and reliability; product portfolio; pricing; and staying power. Which companies are the leading global vendors for energy storage systems?

.

Which energy storage systems are the most popular in 2021?

Published by Statista Research Department, Jun 28, 2024 In 2021, Tesla accounted for a 5.3 percent share of the global energy storage integration system market, which combines the components of the energy storage technologies into a final system. NGK Insulator and Fluence accounted for the second- and third-largest market shares.

How many GWh of energy-storage cells were shipped in 2023?

Updated February 06, 2024 The world shipped 196.7 GWh of energy-storage cells in 2023, with utility-scale and C&I energy storage projects accounting for 168.5 GWh and 28.1 GWh, respectively, according to the Global Lithium-Ion Battery Supply Chain Database of InfoLink.

Which energy storage projects shipped the most in 2023?

As for small-scale energy storage projects, CATL, REPT, EVE Energy, BYD, and Great Power shipped the most. The top 5 list remained unchanged in the first three quarters of 2023.

Which energy companies have the most GWh shipments?

BYD and EVE Energy followed closely each with shipments of over 25 GWh, while REPT BATTERO and Hithium each ranked fourth and fifth with shipments of over 15 GWh. Despite intense price competition, the leading companies demonstrated significant cost control advantages, reinforcing the "the strong get stronger" pattern.
