

# Engy solutions

## Overview

---

Who is ENGIE solutions?

ENGIE Solutions is the long-term ally of cities, industries and companies, helping to speed up their energy transition by designing and implementing customised, decentralised solutions.

Why should you choose Engie solutions?

Consume better: by delivering tailor-made energy solutions incorporating the production, distribution, storage and supply of local, renewable energies. Because the energy transition is just as much something that its clients have to commit to as ENGIE Solutions itself, it is an ally:.

Who is engys?

Founded in 2009, ENGYS is a privately held company specialised in the development and provision of CFD software products and services for engineering analysis and design optimisation. We take advantage of open-source technologies to deliver cost-effective, well supported, easy-to-use CFD software solutions to industry.

What is energy solutions?

Our Energy Solutions respond to these challenges by taking care of the energy performance and decarbonization of our customers' facilities. This is the role of our 40,000 employees working out in the field and our diversified and complementary portfolio of offers (energy services, renewable heating networks, on-site solar energy, etc.).

How Engie solutions can speed up a client's energy transition?

So ENGIE Solutions has made a long-term commitment to speeding up its clients' energy transition. ENGIE Solutions is a subsidiary of the ENGIE Group which, by focusing its activities on renewable energies and infrastructure, affirms its pioneering role in the energy sector while supporting all its

stakeholders on their decarbonisation journey.

Why should you choose energy solutions?

With our Energy Solutions, we are a world champion in decarbonizing the infrastructures of our customers and of cities, industries and services.
