

# Enterprise ESS system project financing options in Vietnam 2025

## Overview

---

How a Bess project is promoting energy storage in Vietnam?

Encouraging domestic enterprises to invest in new technologies will promote the growth of the energy storage industry in Vietnam. Investment in BESS projects in Vietnam is attracting the attention of international partners due to the country's strong potential for RE development.

What funding sources are available in Vietnam?

Vietnam has accessed one of the largest international funding sources aimed at projects for greenhouse gas emission reduction and climate adaptation. The GCF provides both grants and concessional loans. FIGURE 18. Domestic funding and capital sources for RE and BESS projects in Vietnam.

How can Vietnam continue to promote re and Bess projects?

Diversifying funding sources and support mechanisms is a crucial factor in helping Vietnam continue to strongly promote RE and BESS projects and, at the same time, achieve its energy transition and greenhouse gas emission reduction goals.

What will Vietnam's energy future look like in 2030?

The government anticipates a 10-12% annual surge through 2030 in the nation's power consumption. This rapidly expanding energy demand presents a significant challenge to Vietnam's transforming energy landscape, especially considering the urgent need to reduce global emissions and utilise renewable alternatives.

How can international investors support re & Bess projects in Vietnam?

International capital: International financial institutions, such as the World Bank, the Asian Development Bank (ADB) and green investment funds, are ready to provide financial support for RE and BESS projects in Vietnam. International investors can leverage these funding sources to mitigate

financial risks.

Does Vietnam have a Bess project?

Although no large-scale BESS projects have been implemented yet, Vietnam has put in place the conditions for BESS roll-out. Vietnam has a growing number of engineers and specialists in the RE sector. Training programmes at universities and research organisations are beginning to place emphasis on energy storage technology.

# Enterprise ESS system project financing options in Vietnam 2025

## PROJECT FINANCE GUIDE: VIETNAM

PROJECT FINANCE GUIDE: VIETNAM 2025 It can be expected that the demand for project financing, in particular for large cross-border investment projects, will continue to grow in 2025. ...
