## Overview

---

Are evergreen solar panels a good buy?

Evergreen Solar Power were fast to get the system installed even with the Christmas break, there was an issue with the initial inverter being DOA however they sourced another one and installed the very next day. The 5kw system with 6.5kw of solar panels performs perfectly, good buy electricity bill. Original ratings.

Is Evergreen Energy a good company?

According to customer reviews, Evergreen Energy has been extremely poor in several areas, including the survey process, installation, and post-install support. There are still faults with the ASHP system 21 months post commissioning that are not getting resolved, and customers have had to seek

help from HIES.

Did Evergreen Energy install solar panels & a battery?

Yes, Evergreen Energy installed solar panels and a battery in the referenced project. Communication could have been better at times - the install date was delayed by a few weeks unfortunately which might have been prevented with earlier contact with the project coordinator.
