

Free photovoltaic panels installed in factory buildings

Overview

Can a solar PV system be installed on a factory roof?

As factories are energy-intensive buildings, installing a solar PV system on the roof of a factory ensures free power can be generated to run everything underneath it. While reducing energy costs, a solar PV installation has the added benefit of demonstrating Corporate Social Responsibility thanks to its environmental credentials.

Does the UK offer government grants for solar panels on commercial buildings?

Currently, the United Kingdom does not offer government grants for solar panels on commercial buildings. On the other hand, the UK government has also applied 0% VAT on goods like solar panels and sustainable technologies which can save purchase costs immensely.

What are the benefits of a free solar PV system?

Most educational premises have large buildings spread across multiple sites, providing ample roof space for solar panel installation. Clients can take advantage of a free solar PV system through a Power Purchase Agreement (PPA) and benefit from reduced energy bills and protection against future energy price rises.

How much can I save by installing solar panels on my roof?

How much can I save on energy costs by installing solar panels on my factory roof?

Customers can see a healthy reduction in their bills of up to 80% annually, dependant on the size of the system installed. What is the typical return on investment (ROI) for solar panel installations in industrial buildings?

.

Are commercial solar panels a good investment?

Commercial solar panel installation can bring many benefits: Over the 25-year lifetime of solar panels, savings can equate to thousands of pounds. A 20kW system can potentially save businesses over £3,000 annually on their electricity bills. Solar panels allow for energy independence and some level of insulation from fluctuating electricity prices.

Are commercial solar panels right for your business?

Commercial solar panels can be beneficial regardless of whether your company is large or small. Most businesses are active in the daytime, which means they are the perfect candidates for utilising solar panels and enjoying the cost savings that come with them. Let's see if commercial solar panels will be right for you.
