

Free solar panels companies uk

Overview

Currently, free solar panels are not available in the UK. In 2010, some solar companies offered practically free solar panel installations due to the incentives of the Feed-in Tariff. However, since the end of the Feed-in Tariff, this incentive no longer exists and solar companies now charge for their installations. Are solar panels free in the UK?

Solar panels can reduce your energy bills by over £1,000 a year, and some government grants, such as the ECO4 scheme, even provide free solar panels to eligible households. Our experts have researched the available solar panel funding options in the UK, detailing who qualifies and how to apply.

What grants are available for solar panels in the UK?

Solar-specific grant schemes in the UK include the following: There are currently three government grants available to help with the upfront costs of solar panel installation: ECO4: Funding for energy-efficient retrofits to fuel-poor households, or ones with occupants on certain benefits.

How do I qualify for free solar panels in the UK?

You may qualify for free solar panels if you're eligible for assistance through the ECO4 scheme or Home Upgrade Grant, which are both national, government-backed programmes. Unfortunately, these initiatives come with specific criteria that only a small minority of UK households fulfil.

What are solar panel grants?

Solar panel grants are financial incentives that make solar installations more affordable, encouraging the adoption of renewable energy. Solar panels can reduce your energy bills by over £1,000 a year, and some government grants, such as the ECO4 scheme, even provide free solar panels to eligible households.

How much do solar panels cost in the UK?

Our predictably British weather is actually perfect for solar panels - all they need is standard daylight. How expensive are solar panels in the UK?

Solar panels cost roughly £6,000 - £7,000 without the use of a grant - the price varies based on the panels' quality and the size of your home.

Who can get free solar panels?

The scheme requires medium and large gas and electricity suppliers — including British Gas, EDF Energy, Ovo, Scottish Power, and SSE — to help households with energy efficiency measures, including free solar panels (or partial payment) if you are eligible.

Free solar panels UK: Can you switch to solar for free?

It's pretty difficult to get free solar panels in the UK, but that wasn't always the case. Back in the noughties, the Labour government's generous reward tariffs for excess solar electricity inspired providers to offer "free" panels in return for collecting all your tariffs (which, over the years, often added up to more than the panels cost).
