

# Gel battery storage project financing options in Finland 2026

## Overview

---

The timelines were confirmed alongside the announcement of key project partners that will see the delivery of the significant project to the Finnish energy system.

The timelines were confirmed alongside the announcement of key project partners that will see the delivery of the significant project to the Finnish energy system.

Renewable Power Capital has signed the main construction/supply contracts for the Kalanti 50MW BESS facility and has confirmed that the construction works will start in March 2025. The site will provide a 2-hour storage solution to the Finnish electricity Market. IMMEDIATE RELEASE – London 11 March.

A 30 MW / 60 MWh battery energy storage system is being built in Kemijärvi, Northern Finland, and will be completed in summer 2026 to strengthen the stability and flexibility of Finland's power system. Despro serves as Owner's Engineer, responsible for project coordination, quality and safety.

Swedish flexible assets developer and optimizer Ingrid Capacity has joined hands with SEB Nordic Energy's portfolio company Locus Energy to develop what is claimed to be Finland's largest and one of the Nordics' largest battery energy storage systems (BESS). The 70 MW/140 MWh BESS project will be.

SEB Nordic Energy's portfolio company, Locus Energy, in collaboration with Ingrid Capacity, will build the largest battery energy storage project in the Nordics. The project will add 70 MW/140 MWh of storage capacity to SEB Nordic Energy's Finnish portfolio, which already includes wind and.

Fu-Gen AG has sold a 50 MW ready-to-build battery energy storage project in Finland to Nala Renewables EY Corporate Finance offers investment banking services through dedicated teams with a focus on M&A. EY Corporate Finance leverages EY's global network of investment banking professionals to.

SEB Nordic Energy's portfolio company Locus Energy, in collaboration with Ingrid Capacity, proudly announces the groundbreaking of one of Finland's

largest battery energy storage system (BESS) in Nivala Municipality, Northern Ostrobothnia. After the start of commercial operations in 2026, the Is this Finland's largest battery energy storage system?

Swedish flexible assets developer and optimizer Ingrid Capacity has joined hands with SEB Nordic Energy's portfolio company Locus Energy to develop what is claimed to be Finland's largest and one of the Nordics' largest battery energy storage systems (BESS). The 70 MW/140 MWh BESS project will be located in Nivala, northern Finland.

What is the future of energy storage in Finland?

Reserve markets are currently driving the demand for energy storage systems. Legislative changes have improved prospects for some energy storages. Mainly battery storage and thermal energy storages have been deployed so far. The share of renewable energy sources is growing rapidly in Finland.

Which energy storage technologies are being commissioned in Finland?

Currently, utility-scale energy storage technologies that have been commissioned in Finland are limited to BESS (lithium-ion batteries) and TES, mainly TTES and Cavern Thermal Energy Storages (CTES) connected to DH systems.

Are energy storage systems a solution to Finland's energy transition?

Energy storage systems offer a solution. "This groundbreaking is an important moment for Finland's energy transition and a concrete step toward a more flexible, resilient, and decarbonized energy system," said Jussi Jyrinsalo, Senior Vice President at Fingrid.

Is energy storage a viable solution for the Finnish energy system?

This development forebodes a significant transition in the Finnish energy system, requiring new flexibility mechanisms to cope with this large share of generation from variable renewable energy sources. Energy storage is one solution that can provide this flexibility and is therefore expected to grow.

Is energy storage the future of wind power generation in Finland?

Wind power generation is estimated to grow substantially in the future in Finland. Energy storage may provide the flexibility needed in the energy

transition. Reserve markets are currently driving the demand for energy storage systems. Legislative changes have improved prospects for some energy storages.

## Gel battery storage project financing options in Finland 2026

---

### Groundbreaking ceremony marks commencement of one of Finland...

SEB Nordic Energy's portfolio company Locus Energy, in collaboration with Ingrid Capacity, proudly announces the groundbreaking of one of Finland's largest battery ...

### SEB Nordic Energy invests in major battery storage project

The project will add 70 MW/140 MWh of storage capacity to SEB Nordic Energy's Finnish portfolio, which already includes wind and hydropower. Located in Nivala Municipality ...

### EY advises Fu-Gen on sale of a 50 MW BESS project ...

The large-scale battery energy storage (BESS) project is located in the Southern Ostrobothnia region of Finland. Construction is expected to start during Q2 2025, with operations of the BESS commencing in 2026.

### India's First Commercial Utility-Scale Battery Energy ...

New Delhi , 08 May 2024 -- In a significant step forward for India's energy transition, the Delhi Electricity Regulatory Commission (DERC) has granted regulatory approval of India's first commercial standalone Battery Energy ...

### Battery storage tax credit opportunities and ...

Structuring options for financing energy storage: Sale-leaseback Structuring options for financing energy storage: Pass-through lease There are other structuring variations of the lease pass-through. Tax credits for ...

51.2V 150AH, 7.68KWH

### RPC marks next stage of BESS development in Finland

The timelines were confirmed alongside the announcement of key project partners that will see the delivery of the significant project to the Finnish energy system.

- IP65/IP55 OUTDOOR CABINET
- OUTDOOR CABINET WITH AIR CONDITIONER
- OUTDOOR ENERGY STORAGE CABINET
- 19 INCH

### [Financing Energy Storage: A Cheat Sheet](#)

As such, we're providing this "Cheat Sheet for Energy Storage Finance" based on our work as buy-side and sell-side investment bankers experienced in both energy storage venture capital and project finance. I'm also including some ...

## Battery Energy Storage Financing Structures and Revenue ...

This Practice Note discusses changes to financing structures for battery storage projects after the enactment of the Inflation Reduction Act. This Note also discusses the fixed and variable ...

### [Finland to host 240 MWh of new BESS projects](#)

The 70 MW/140 MWh BESS project will be located in Nivala, northern Finland. Set to go online in 2026, the facility will enhance grid stability, energy resilience and accelerate green electrification. The project marks Ingrid ...

## Foundation stone laid for one of Finland's largest battery energy

The 70 MW/140 MWh project is a strategic investment that supports Locus Energy's goal of creating a system premium by optimising the production of various assets in ...

## 2025-02-18 , Return redefines energy storage with ...

Pioneering financing and market leadership Project Mufasa is the largest utility-scale battery storage project in the Netherlands to be fully funded through 100% project financing of over EUR 350 million.

## Gel batteries: advantages, disadvantages and operation

A gel battery works by using a gel electrolyte instead of a liquid electrolyte, as in conventional lead-acid batteries. The gel is a viscous material that contains sulfuric acid, water and silica, and acts as an ion conductor. ...

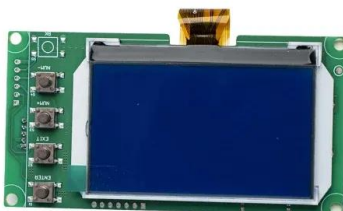

## New Subsidy schemes for Battery Energy Storage ...

In autumn 2024 two draft regulations were published regarding state aid for large-scale electricity storage systems (BESS), one from the Modernisation Fund ("MF ") 1 - and the second under the National Recovery ...

## Financing Battery Energy Storage for Sustainable ...

Explore financing options for battery energy storage systems and their role in promoting a sustainable energy future through innovative solutions and investments.

## Top 10 Energy Storage Investors in North America , PF Nexus

Discover the current state of energy storage investors in North America, learn about buying and selling energy storage projects, and find financing options on PF Nexus.

### What Investors Want to Know: Project-Financed Battery Energy Storage

Battery energy storage systems (BESS) store electricity and flexibly dispatch it on the grid. They can stack revenue streams offering arbitrage, capacity and ancillary services ...

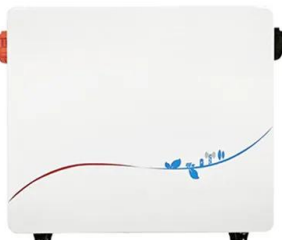

### Your Guide To Solar Battery Storage Financing

With refinancing, you take a larger mortgage and use the balance to finance your project. Both options can earn you tax credits since they finance home upgrade projects. Battery Leases and Power Purchase Agreements Battery leases are ...

### Financing Strategies for Battery Energy Storage Projects

This webinar is ideal for anyone involved in the implementation of battery energy storage projects at their facilities and will provide valuable insights and strategies for successful deal design

### Kemijärvi BESS Project - 30 MW / 60 MWh Battery Energy ...

A 30 MW / 60 MWh battery energy storage system is being built in Kemijärvi, Northern Finland, and will be completed in summer 2026 to strengthen the stability and flexibility of ...

## Residential Battery Storage , Electricity , 2024 , ATB

The battery storage technologies do not calculate levelized cost of energy (LCOE) or levelized cost of storage (LCOS) and so do not use financial assumptions. Therefore, all parameters are the same for the research and development ...

## Groundbreaking ceremony marks commencement of ...

SEB Nordic Energy's portfolio company Locus Energy, in collaboration with Ingrid Capacity, proudly announces the groundbreaking of one of Finland's largest battery energy storage system (BESS) in Nivala ...

## Financing Battery Energy Storage Systems - Meeting ...

Conclusion Battery energy storage systems represent a keystone for the transition towards a more sustainable energy generation and utilisation. Despite the value and advantages that they offer to enhance grid ...

## The 360 Gigawatts Reason to Boost Finance for Energy Storage ...

The gap to fill is very wide indeed. The International Renewable Agency (IRENA) ran the numbers, estimating that 360 gigawatts (GW) of battery storage would be needed ...

## Neoen launches construction of Ylikkälä Power Reserve Two in Finland

Neoen (ISIN: FR0011675362, Ticker: NEOEN), one of the world's leading producers of exclusively renewable energy, has provided notice to proceed to battery storage ...

## Gel batteries: advantages, disadvantages and operation

A gel battery works by using a gel electrolyte instead of a liquid electrolyte, as in conventional lead-acid batteries. The gel is a viscous material that contains sulfuric acid, water ...

## SEB Nordic Energy invests in major battery storage project

Located in Nivala Municipality in Finland's Ostrobothnia region, the project is expected to be completed in 2026. The Nivala battery storage project marks SEB Nordic ...

## Financing the Energy Transition - Funding battery storage projects

While financing the storage of electricity has often been carried out on a low-leveraged, corporate or portfolio basis, as the size of battery projects increases, we are now ...

## Lion Storage Secures Financing for One of Europe's Largest Battery

This diverse group of stakeholders underscores the growing support for energy storage as a critical component of the future energy infrastructure. Mufasa stands out as the ...

### [The evolving energy storage market](#)

The energy storage market is still in its infancy, but it is evolving rapidly. Portfolios of standalone utility-scale batteries are now being financed on a merchant basis. The ...
