

Generace generator

Overview

Generac manufactures gasoline-fueled, diesel-fueled and bi-fuel engine-driven power generation equipment, modular paralleling systems, automatic transfer switches and small engines. The company supplies products to the industrial, commercial, and portable generator markets through many different distributors. In December 2009, Generac introduced Generac Industrial Power (a rebranding of its industrial.

Is Generac a good generator?

This generator has been absolutely great, it comes on within a few seconds of the power going out and has more than enough power to run my entire home. Generac offers the most affordable backup power solutions. With kW ratings between 6kW and 150kW, there is a Generac Generator available for all applications.

What is a Generac gp6500 portable generator?

The GP6500 Portable Generator provides emergency power in the case of an outage or just power the fun stuff with a GP Series portable generator. The 6500-watt Generac GP6500 portable generator can be used to tackle home projects, provide power for tools, or deliver essential electricity in the case of an outage.

What is a Generac standby generator?

A Generac standby generator protects your home and gives you peace of mind. When the power fails, you'll be ready. With automatic operation and 24/7/365 support from our Wisconsin headquarters, a Generac backup generator gives you added protection in an increasingly uncertain world.

What is a Generac gp15500efi portable generator?

This rechargeable power bank provides clean, quiet, and emission-free electricity. From emergency home backup to DIY projects to the jobsite, the Generac GP15500EFI portable generator provides high wattage, dependable portable power. Generac is the global leader for home backup generators. We also offer industry leading portable generators.

What is Generac Industrial Power?

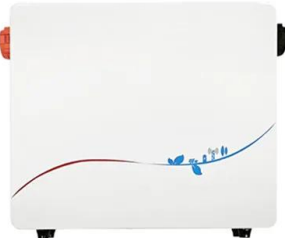

The company supplies products to the industrial, commercial, and portable generator markets through many different distributors. In December 2009, Generac introduced Generac Industrial Power (a rebranding of its industrial products division) to include new engines, new enclosures, ergonomic changes and aesthetic changes.

How did Generac start?

It started with a gas-powered home standby generator. In fact, Generac was the first to construct and sell residential standby generators that were also affordable, as well as the first to design an engine specifically for generators. This made generators available to a much wider market, for both home and industrial needs.
