

# Goal zero

## Overview

---

What are goal zero power products?

Here's a quick and dirty lesson in power: All Goal Zero power products have a number in their name, ex. Venture 30, Flip 36, Goal Zero Yeti 500X. These numbers refer to the Watt Hours (Wh), or the amount of energy that can be stored in each battery, and can help estimate how long your gear will run from each power bank or power station.

What can I buy with Goal Zero?

Shop all of Goal Zero power solutions from home backup systems, solar generators, to portable power stations and more. Sign up for emails on deals, sales, and promotions. Be prepared for anything with Goal Zero. Our portable power stations, solar panels, lights, and accessories will keep you powered up when the grid is not available.

Who is Goal Zero?

“Goal Zero isn’t just a company, it’s a business created by people who live life to its fullest.” Inspired by passion for adventure, respect for the planet and a humanitarian heart. We may be a bit irreverent most days but we take our work and play seriously and are proud to provide the most innovative portable solar products on the market.

What can Goal Zero do for You?

Power stations, solar panels, and camping lights that can be easily connected and create a customized power system. Goal Zero offers a range of innovative and eco-friendly products that are designed to meet your power needs in a way that is convenient, reliable, and sustainable.

What is a goal zero portable power station?

Engineered for versatility, our award-winning portable power stations are designed to meet all your power needs, anytime, anywhere. Whether you're

looking for a dependable source of home backup power during outages, planning your next outdoor adventure, or need a sustainable, fumeless power solution for off-grid living, Goal Zero has you covered.

What is a goal zero solar power pack?

DEMOCRATIC REPUBLIC OF THE CONGO The first versions of Goal Zero solar and power products—originally called the GoBe—are deployed to rural African communities that have never had power. First tested in the Democratic Republic of the Congo, the solar power pack consisted of a battery, solar panel, and LED light.
