

GoodWe 40kw photovoltaic inverter parameters

Overview

What is a goodwe MT series inverter?

The second generation of GoodWe MT Series inverter is suited for medium and large scale commercial rooftops and ground-mounted solar PV systems where maximum versatility and profitability are important.

What is a goodwe et series inverter?

GoodWe's ET Series inverters, available in 40kW and 50kW capacities, are designed for commercial and industrial PV installations. These adaptable inverters seamlessly integrate into both on-grid and off-grid applications, facilitating parallel connections in either scenario.

What is a goodwe ET50 hybrid inverter?

Powerful and compact, the GoodWe ET50 hybrid inverter is ideal for Commercial and Industrial (C&I) energy storage solutions.

Does goodwe offer a warranty?

To our inverter product, GOODWE provides a standard manufacturer's warranty, which comes with the product and a prepaid warranty extension solution to our customer. You can find the details about the terms and solutions from the below link.

What is the nominal power of the inverter?

700: the nominal power is 700W. 30: the version of the inverter is 3.0. For the grid type with neutral wire, the voltage between the neutral wire and the ground must be less than 10V. For a safe operation, the inverter will automatically reduce the output power when the operating environment is not ideal.

How does a PV inverter work?

The inverter converts the DC power generated by the PV module into AC power and feeds it into the utility grid. The intended use of the inverter is as follows: Circuit Transformer.
