

Gopro rechargeable lithium ion battery

Overview

Does GoPro have a rechargeable battery?

. Add an extra battery or two to your HERO8 Black, HERO7 Black, HERO6 Black, HERO5 Black, or HERO (2018) setup with this Rechargeable Li-Ion Battery from GoPro. The battery features a 1220mAh, 4.7W capacity and can be recharged in your camera or a separately available charger.

What is the best battery for a GoPro?

The must-have accessory for ALL GoPro users!! GoPro Rechargeable Battery Use this 1220mAh lithium-ion rechargeable battery as a spare or replacement battery for your HERO6 Black or HERO5 Black.

What is a GoPro Enduro rechargeable battery?

This GoPro Enduro Rechargeable battery enhances your camera performance over a wide temperature range. This spare battery increases your recording time in the GoPro HERO9/10/11, and almost 40% improvement while using high-performance settings. Improve your HERO9/HERO10/HERO11's cold weather performance (temperatures down to -10°C).

Do all GoPro batteries contain lithium?

Yes, all GoPro batteries contain lithium, but it's a small quantity, and no TSA agent will stop you because of this. There are currently no aftermarket batteries for GoPro that don't contain lithium. Do all GoPro models use the same battery?

.

Are GoPro batteries healthy?

The battery is healthy. Old lithium batteries lose their effectiveness over time and do need to be replaced at some point. Yes, they're rechargeable, but they're also consumables in the sense that their ability to hold a charge

diminishes with use. In recent models, GoPro has built in a battery health check feature.

Can I use a 1220 mAh battery for my GoPro?

Use this 1220mAh lithium-ion rechargeable battery as a spare or replacement battery for your GoPro. Warning: Don't use the battery if it's been damaged. Follow all warnings and instructions in the camera user manual. Note: For compatibility with HERO5 Black and HERO (2018) cameras, a camera software update is required.
