

Gov grant for solar panels

Overview

You may be able to get a loan through the Green Deal, but you'll have to pay this back.

Who will receive a \$7 billion solar grant?

Washington – Today, April 22, as the Biden-Harris Administration celebrates Earth Day, the U.S. Environmental Protection Agency announced 60 selectees that will receive \$7 billion in grant awards through the Solar for All grant competition to deliver residential solar projects to over 900,000 households nationwide.

What is a solar for all grant?

The Solar for All grants aim to speed up that shift, says David Widawsky, director of the EPA's Office of the Greenhouse Gas Reduction Fund, which manages the program. But it isn't just rooftop solar. Widawsky says the money will also go toward batteries that allow solar customers to store their energy.

What is the \$7 billion solar for all program?

Oops, something went wrong. Check your browser's developer console for more details. Under the \$7 billion Solar for All program, the 60 grant recipients will create new or expand existing low-income solar programs, which will enable over 900,000 households in low-income and disadvantaged communities to benefit from distributed solar energy.

What solar projects are getting grants?

Among those receiving grants are state projects to provide solar-equipped roofs for homes, college residences and residential-serving community solar projects in West Virginia, a non-profit operating Mississippi solar lease program and solar workforce training initiatives in South Carolina.

Will low-income households get affordable solar energy?

SIMON: Nothing. SALAS: (Speaking Spanish). SIMON: Soon, more low-income

households like his will get affordable solar energy. A new Environmental Protection Agency program is giving \$7 billion to programs that fund rooftop solar panels, batteries to store solar energy and something called community solar.

What is community solar?

A new Environmental Protection Agency program is giving \$7 billion to programs that fund rooftop solar panels, batteries to store solar energy and something called community solar. David Widawsky at the EPA says community solar allows renters and others who can't install panels to tap into solar energy generated at a shared site, like a solar farm.
