

# **Government procurement price of standalone energy storage in Panama**

## Overview

---

The resolution sets a 180-month energy supply period from January 2029 to December 2043. It also establishes a capacity of 120 megawatts (MW) per month over the contract period, with a maximum bid price of \$97.50/MWh.

The resolution sets a 180-month energy supply period from January 2029 to December 2043. It also establishes a capacity of 120 megawatts (MW) per month over the contract period, with a maximum bid price of \$97.50/MWh.

Central American nation Panama has recently announced its first-ever renewable energy and energy storage bidding auctions to meet the growing demand for electricity and enhance grid reliability in the country. The country's National Secretary of Energy and the state-owned power transmission company.

Panama's national secretary of energy has launched its first bidding auction exclusively for renewables and energy storage. The bidding process – held by the national secretary of energy and state-owned electricity transmission company, Empresa de Transmisión Eléctrica SA (ETESA) – is seeking 500MW.

The resolution sets a 180-month energy supply period from January 2029 to December 2043. It also establishes a capacity of 120 megawatts (MW) per month over the contract period, with a maximum bid price of \$97.50/MWh. The International Renewable Energy Agency (IRENA) reported that Panama had.

The country is preparing short- and long-term tenders for energy procurement, with studies underway to allocate solar quotas in future auctions. Urriola stated: "The predictability in the tender calendar responds to the demands of investors and distribution companies." While energy storage is not.

Empresa de Transmisión Eléctrica S.A. (ETESA) has published the tender documents for the bidding of long-term Firm Power and Energy, aimed at renewable generation plants. "This is the first long-term tender, exclusively for renewable energies to be held in Panama in the last 9 years, and one of the.

The Panamanian government has issued a resolution recommending a long-term renewable energy procurement process to stabilize electricity prices. The Electric Transmission Company (ETESA) has been instructed to submit public bidding documents to the National Authority for Public Services (ASEP) by.
