

Greentech Photovoltaic Bracket Bidding

Overview

Does GreenTech have a solar farm in Scotland?

Following consents for two 30MWp solar farms in Scotland earlier in 2022, greentech is committing further investment and growing its presence in Scotland, with plans for a number of new sites to be announced later this year.

Who are GreenTech renewables?

Choose us for reliable and comprehensive UK solar panel installations and other solar energy solutions. Greentech Renewables are solar panel and battery storage specialists. With over 15 years of experience and thousands of installations, we pride ourselves on delivering top-quality service and products at the lowest prices in the UK.

Who is UK GreenTech?

We are UK Greentech, a leading distributor of quality branded renewables across the UK. We keep a wide range of renewable products stocked locally and can provide you with same-day delivery, expert advice, and quality service from all of our locations. Choose us for unparalleled service.

What does GreenTech do?

The company is committed to a community benefit fund as well as increasing biodiversity on site and offering local school visits to the solar farms. greentech is an experienced project developer for ground-mounted photovoltaic (PV) solar power across Europe.

Will GreenTech be able to develop in Scotland in 2022?

Yaw Ofori, managing director UK of greentech, said: "greentech brought forward our first two developments in Scotland in Summer 2022 and have since received consent for both projects - we want to thank the local communities for their input into each development and also for the welcome

we have received to date.

How do I contact GreenTech?

We are ready to supply you with the solar and renewable products that you need - wherever and whenever you need them. Simply fill in the "Contact Us" form, or call your local UK Greentech, for more information.
