

Hanchu ess battery

Overview

What is a hanchu ESS battery?

The Hanchu ESS 9.4kWh Blade Lithium Battery is an innovative solution for home battery storage, offering efficient energy management. Firstly, this battery is designed with advanced lithium-ion technology, which ensures high energy density and a long lifespan.

Do hanchu ESS batteries come with a warranty?

Hanchu Ess products come with a 12-year warranty as standard - a longer warranty than most battery brands in the UK. Each individual Hanchu Ess battery can be put online to allow monitoring by the manufacturers on the Hanchu monitoring platform.

Can hanchu ESS batteries be monitored online?

Each individual Hanchu Ess battery can be put online to allow monitoring by the manufacturers on the Hanchu monitoring platform. The battery monitoring is in addition to the Lux system monitoring, allowing individual or connected batteries to be remotely analysed and supported by the manufacturers.

What is a hanchu ESS 3.2kw HPD lithium battery?

Each Hanchu Ess 3.2kW HPD Lithium battery has an individual built in modem. When running, the battery can be connected to the internet, allowing specific monitoring, technical support and future upgrades. Having a 100% DOD, the Ess 3.2kW makes every bit of energy count.

What temperature can a hanchu ESS battery operate at?

The Hanchu Ess 9.4kW battery will remain at full capacity at temperatures as low as 0°C. It will also operate at optimum levels in temperatures up to 50°C, making it efficient in a wide range of conditions. Each individual Hanchu Ess battery can be put online to allow monitoring by the manufacturers on the Hanchu monitoring platform.

What is a hanchu ESS 9400 HPD lithium battery?

Each Hanchu Ess 9400 HPD Lithium battery has an individual modem built in. When running, the battery can be connected to the internet, allowing specific monitoring, technical support and future upgrades. Having a 95% DOD, the Ess 9.4kW makes every bit of energy count.

Hanchu ess battery

HANCHU ESS

When paralleled, HOME-ESS-LV-5.12K can withstand a maximum current of 220A in the main circuit, allowing for faster response to power demands, adaptation to a wider range of applications, and eliminating the need for a combiner box installation.
