

Haolun Village Solar Power Plant

Overview

What is the world's largest hydro-solar power plant?

The world's largest and highest-altitude hydro-solar power plant, which generates power through a water-light complementary manner, entered full operation in China on Sunday. For the first time, the Kela photovoltaic power station boasts of an installed capacity scale of 1 million kilowatts for a hydro-solar power grid.

What is a photovoltaic power station in Sichuan?

From India to Wales and now England, my journey has been filled with adventures that inspire my paintings, cooking, and writing. The high-altitude Kela photovoltaic (PV) power station in Sichuan can save over 600,000 tons of standard coal annually by combining both solar and hydropower to produce electricity.

Where is Kela PV power plant located?

Located in the Yalong River Basin in the Tibetan Autonomous Prefecture of Garze, Yajiang County in the southwest Sichuan Province, China is Kela PV Power Plant Phase I.

Where does solar power come from in Sichuan?

On a snowy mountain at an altitude of 4600 meters in western Sichuan, rows of blue PV panels are generating electricity from solar energy, while the Yalong River is roaring in the distance. This land is brought to life by clean power where solar and hydro meet.

How does SEPAP support solar installations in high-poverty rural villages?

SEPAP supports solar installations in high-poverty rural villages through three primary types of projects: village-level arrays (for projects generally no more than 300 kW), village-level joint construction arrays (for projects generally no more than 6000 kW), and rooftop installations targeted toward poor villagers

(typically several kW).

Where is China's new solar power plant located?

The plant, situated in the Yalong River Basin of the Tibetan Autonomous Prefecture of Garze in southwest China's Sichuan Province's Yajiang County, will cover the needs of 700,000 households for a whole year with its annual generating capacity of 2 billion kilowatt-hours (kWh).
