

Hart lithium battery

Overview

What is a Hart 20V battery?

The battery features an on-board fuel gauge so you know exactly how much charge you have left. It is compatible with all HART 20V power tools and features lithium-ion power for fade-free power for longer-lasting performance. If you are looking for more power and longer runtime out of your 20V tools then this is the battery for you.

Which Hart 20V power tools are compatible with this battery?

It is compatible with all HART 20V power tools and features lithium-ion power for fade-free power for longer-lasting performance. If you are looking for more power and longer runtime out of your 20V tools then this is the battery for you. Our 20V 4.0 Ah battery provides 4X the runtime.

What is a Hart 6.0ah battery?

It also features an onboard fuel gauge that displays the remaining runtime. What's more, this 6.0Ah battery is compatible with all HART 40V outdoor tools and 40V chargers. Throw in a limited 3-year warranty and you can see why there's never been a better time to go cordless. Get ALL POWER, NO GAS with the HART 6.0Ah Battery.

What kind of batteries do Hart tools use?

Hart tools use different batteries. Nickel-Cadmium (Ni-Cd), Nickel-Metal Hydride (Ni-MH), and Lithium-Ion (Li-ion) are the battery types. Although the Ni-Cd and Ni-MH are the older types of batteries, they are efficient, durable, and perform well with power tools.

What is a Hart 40V battery?

This high-capacity battery is perfect for more demanding tools like HART 40V mowers, chainsaws, blowers, etc. This battery also features an onboard fuel gauge that displays the remaining runtime so you can track how much time

you have left in your project before needing to recharge or swap to another HART 40V battery.

Why should I use a Hart battery?

The Hart batteries give optimal performance when using suitable Hart batteries with Hart tools with a similar voltage ratio and output current rating. The batteries, with similar specs, enable your tool to work for longer periods. Hart allows you to use a 20V battery for the whole lineup of 20V Hart tools only.
