

High quality solar panels price

Overview

The Independent Advisor star ratings for solar panels is calculated based on weighted factors: durability and reliability (35 per cent), performance (35 per cent), and customer satisfaction (30 per cent). The customer satisfaction scores are derived from a recent survey of over 1,500 Independent readers who own solar.

Solar panels cost £438 per m² on average for a 12-panel system, which is typically the best choice for a four-bedroom household. What are the best solar panels in the UK in 2024?

We compared top solar brands to pick the best solar panels in the UK in 2024. We chose SunPower as the best for durability, Project Solar for customer satisfaction, and AIKO as the most efficient. Our experts have researched a broad range of solar panels on the market to help you decide which option best suits your needs.

What are the best solar panels in the UK?

For homeowners who prioritise solar panel efficiency, REC Group's Alpha Pure-R is an appealing option. With an outstanding 22.3% efficiency rate, these are some of the most efficient solar panels in the UK today. These high quality solar panels also have an excellent power output (430W) and they are known for their durability.

How much does a solar panel cost in the UK?

The average cost of a solar panel system for a typical three-bedroom house in the UK is £9,600, including a battery. ☐Solar panels can save you up to £1,014 annually, totalling nearly £30,000 of savings over their lifespan. ☐Adding a solar battery can boost your energy savings by up to 90 per cent.

Who makes the best solar panels?

We compared manufacturer data, independent reviews, and third party accreditations for all 322 available solar panel models on the market. According to our findings, the brands with the best solar panels include REC Group, Sunpower, and AIKO.

Which solar panel is best?

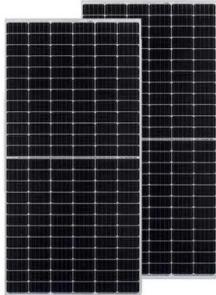

The SunPower Maxeon 6 AC is the best all-rounder in our test. It excels in the key areas of efficiency and warranty, and also performs well on power, heat resistance and eco-friendliness. The panel's efficiency rating puts it in the top 10% of all those we tested, enabling it to make the most of limited sunlight.

What are the cheapest solar panels?

At about £190 per solar panel, Sharp NU-AF solar panels are some of the cheapest solar panels on the market. While they are some of the best solar panels for a lower budget, there are also some disadvantages when it comes to Sharp NU-AF solar panels. For instance, they have a higher performance degradation rate of 0.7% per year.
