Honda ct90 lithium battery

CT90 AGM battery upgrade and Fuse block write up.

The original battery had two "hot" wires out. One fused, one not. I wanted to add a plug in for a hard wired battery charger, outlet for my gps, and in the future, blinkers. Since ...

Lithium Battery

Just bought a Lithium for my Africa Twin. It's tiny compare to the standard battery. They are supposed to have better long life characteristics. Aparantly, when you try and start it after leaving the bike unused for a while you get a response like it's flat. The attempt to

is there an AGM battery for an st90? , lilHonda

my childhood st90 is in the process of being revived. It is mostly running, but I need a battery for it. The original was super dead after 20 years in a barn, so my enterprising uncle cut out the push connectors and put in a 6v battery for his deer feeder. And lo and behold, it worked. But, a

[WHAT BLEW MY RECTIFIER? , lilHonda](#)

I've been running that battery in my CT90 K1 for 3 months now. I paid \$18. Dimensions 2.71 x 1.77 x 3.97 inches. LiFePO4 batteries are great, and are safer than the regular Lithium batteries used in cell phones and laptop computers. LiFePO4 batteries do

modification for a ct90 to run without a battery? , lilHonda

Yes, I'm pretty sure you can run these bikes without a battery - I did it on a suzuki SP200 for a long time. However- there are disadvantages. All of the lights are dim if they work at all, the horn is very quiet- not something you'd want to do on the street, but fine for
