How do I choose the best flowers for retail landscaping?

Consider all four seasons for your retail landscaping flowers. In the summer, large planters can brim with colorful angelonia, vinca and elegant ornamental grasses. Choose drought-tolerant varieties to save water. In the fall, those planters can impress with cold-hardy evergreens, pretty pansies and ruffly ornamental kale.

How many plants can a large planter have?

As a general rule, large planters that are still comparatively smaller can have somewhere between 2 or 3 plants in them. On the other hand, a large planter may have 5 to 8 plants. However, you should exercise your judgment when you are finally placing it. Planter manufacturers can provide you customized options.

What makes a good shopping mall entrance?
