

How much do solar panels cost in Texas

Overview

The average cost of solar panels in Texas is \$2.60 to \$3.00 per watt or \$13,000 to \$30,000 installed, depending on the system size, panel type, brand, quality, and installation complexity. After a 30% federal tax credit, the cost to install solar panels in Texas ranges from \$9,100 to \$21,000. How much do solar panels cost in Texas?

As of October 2024, the average solar panel system costs \$2.07/W including installation in Texas. For a 5 kW installation, this comes out to about \$10,343 before incentives, though prices range from \$8,792 to \$11,894. After the federal tax credit, the average price drops by 30%. You'll probably pay even less than what we show here.

Is it worth it to go solar in Texas?

Going solar in Texas is worth it due to the below-average cost of solar panels. The average cost of solar panels in Texas is \$3.18 per watt, which is lower than the U.S. average of \$3.33 per watt.

How much does a 5 kW solar system cost in Texas?

While a 5 kW system will only cost you \$10,343 in Texas, doubling the system size effectively doubles the price, so you'll pay about twice that for a 10 kW system. The higher the price tag, though, the more you'll get back as a credit towards your federal tax bill. Are solar panels worth it in Texas?

.

Are solar panels a good investment in Texas?

Texas also has attractive solar incentives to help you save on the cost of solar panels. Plus, solar panels offer higher electric bill savings as state power costs rise, totaling thousands of dollars over the 25-year lifetime of a system.

How much does it cost to install solar in Dallas?

The average cost to install solar panels in Dallas is \$30,350, which is higher than the national average price of \$26,000. In Dallas, most homeowners pay between \$23,000 and \$37,700. The higher price tag is due, in part, to the city's cost of living, which is 4% higher than the national average.

How much does a solar panel cost in San Antonio?

The average cost of solar panel installation in San Antonio is \$25,050, with most homeowners spending between \$17,700 and \$32,350. The cost of installing a solar panel in San Antonio is \$25,050 on average. This is slightly lower than the national average, thanks in part to the 8% lower cost of living, which helps keep the prices of everything, including transportation and services, lower.
