

# How much does a large solar panel cost

## Overview

---

The initial cost of installing solar panels in the UK varies. A typical 3.5 kilowatt-peak system costs around £7,000. Larger systems, such as a 6kW system, may cost between £9,000 and £11,000. How much does a solar panel cost in the UK?

The average cost of a solar panel in the UK based on a 350-watt panel is currently between £500 and £800. However, please bear in mind that this is the price for a single solar panel and does not include the professional installation or any other extras e.g. pigeon proofing. With that said, let's explore some common solar installation scenarios.

How much does a solar panel system cost?

The average package 3kW or 4kW solar panel system with battery, usually comes with a 4kW to 14kW battery. The average price of a solar panel system and battery ranges from £8,500 - £14,000 but can be considerably higher depending on the battery. If you want to include a storage solution you are going to have to pay more upfront.

Why are solar panels so expensive?

Panel efficiency: The more sunlight a solar panel can convert into electricity per sq metre, the more expensive it will be. Panel number: More solar panels means more materials, which means a higher cost. You can limit the number of panels you need by choosing highly efficient ones (although they may cost more).

How much does a solar battery cost in the UK?

Added together, the total cost of solar panels and a battery in the UK is £13,000 - £15,500. You can save between £400 - £915 per year on electricity costs, breaking even in 7 - 12 years. Adding a solar battery could help reduce the average homeowner's electricity bill by as much as 70%.

How many homes in the UK have solar panels?

More than 1.39 million homes in the UK have solar panels, as of June 2024, according to government data. Solar panels not only save you money, but they can also earn you cash, all while helping to reduce the planet's carbon footprint. And they'll still generate electricity on gloomy days, which the UK experiences a lot of.

Do solar panels save money?

Solar panels not only save you money, but they can also earn you cash, all while helping to reduce the planet's carbon footprint. And they'll still generate electricity on gloomy days, which the UK experiences a lot of. So, what are the barriers stopping homeowners from installing them?

Cost, mainly.
