

# How much is the commission for photovoltaic panel salesmen

BMS Wiring Diagram

## Overview

---

The average commission for a solar salesman is about 10% of the total sale price. So, if a solar salesman sells a \$10,000 solar system, he or she will earn a \$1,000 commission. How much does a solar panel salesman make?

Solar panel salesmen typically make a commission of around 10% for each sale they make. For instance, if a salesman sells a solar panel system for \$10,000, they can make a commission of \$1,000. Solar panel salesmen make their income through commissions from each sale.

Are solar salespeople paid on commission?

In the solar industry, salespeople are almost always paid on commission. The sales people that are paid commission are usually not placed on any fixed salary range. Most companies prefer to go this route rather than retain a lot of sales people on their employment list.

What is a solar commission?

The solar commission is a rebate that helps offset the cost of installing solar panels on your home. To calculate your rebate, you'll need to know the size of your solar panel system in kilowatts (kW), the type of system you have (on-grid or off-grid), and the state in which you live.

How do solar companies calculate commission rates?

Therefore, some solar companies calculate their base commission rate on the average solar system size and cost to install the system. Then, they'll couple this base rate with incentive multipliers to encourage better-than-average sales. Say your average system size is 6kW, and your average installation cost per watt is \$3.00.

How do solar sales reps get paid?

**Commission Structure for Solar Sales Reps** The majority of solar salespeople are paid on a straight commission pay structure without a base salary. Their

commission structure can be a lot more complicated than canvassers and territory managers because their overall sales compensation is based on several different commission calculation methods.

What is the role of a solar salesman?

A solar salesman works for a solar panel or solar energy company, selling solar panels door-to-door, over the phone, or online. They typically work on commission, so their income depends on how many solar panels they sell. So, what does a solar salesman do?
