

How much is the comprehensive cost of photovoltaic panels

Overview

For a three-bedroom house in the UK, the average cost of a solar panel system including installation is £9,600 with a solar battery, and around £7,100 without. How much does a solar PV system cost?

Here we have assumed each panel is 430 Watts, and can produce roughly 345kWh of energy per year. Basing our analysis of real-life pricing in 2024, we found that a system with 12 PV panels would cost around £6,900, and prices go up and down from there depending on the panel count.

How much does a solar panel cost in the UK?

The average cost of a solar panel in the UK based on a 350-watt panel is currently between £500 and £800. However, please bear in mind that this is the price for a single solar panel and does not include the professional installation or any other extras e.g. pigeon proofing. With that said, let's explore some common solar installation scenarios.

How much does a solar panel cost per kilowatt?

Exactly how much a solar panel costs per kilowatt depends on the type of solar panel you're talking about. Monocrystalline solar panels are the most expensive, and their cost per kW is somewhere around £1,000 - £1,500 whereas polycrystalline solar panels cost about £900 per kW.

How much does it cost to install 10 solar panels?

Depending on the size of the solar panels, it will cost between £5,000 to £6,000 to install 10 solar panels, not taking into account labour costs. How much does a solar panel cost per kilowatt?

Exactly how much a solar panel costs per kilowatt depends on the type of solar panel you're talking about.

How much does a photovoltaic system cost in the UK?

- A household in the UK installs a 5kW photovoltaic system costing £8000 (average cost), which would generate approximately 4320 kWh of electricity annually.
- The annual SEG income in the UK would be £324 per annum.

How much do monocrystalline solar panels cost?

The exact cost of monocrystalline solar panels will vary depending on the manufacturer and the size of the solar panels. As a rule of thumb, monocrystalline solar panels have their highest price point at about £1 - £1.50 per Watt. Polycrystalline solar panels, on the other hand, have a lower efficiency rating than monocrystalline panels.
