

How to check the photovoltaic panel grade certificate

Overview

How do I get an MCS certificate for my solar panels?

Your installer usually takes care of getting an MCS certificate for your solar panels during the installation. But to be eligible for an MCS certificate, your solar panel installation must first: Your installer should issue your MCS certificate within 10 working days of wrapping things up.

Do I need a certification to install a solar PV system?

It is a requirement for every solar PV system to have certification. Once your solar PV system is installed, the final prerequisite to completing your installation is obtaining one of these certificates which grants approval to connect to the national grid. Are they mandatory?

Yes, it is mandatory to obtain a G98/G99 certificate.

What does a solar PV certificate mean?

These certificates confirm that your solar PV system has met the requirements for the connection of generation equipment in parallel with the national grid. They contain a list of requirements to connect solar PV systems (as well as other microgenerators) to public low voltage networks so they work in sync.

Do solar PV installations need to be MCS certified?

Also, the Council of Mortgage Lenders has advised that, as a minimum to avoid the risk of a property being ineligible for a mortgage, both new and existing Solar PV installations must be MCS certified. All renewable energy products are examined by certification bodies against MCS manufacturing and testing standards.

Where can I find a certified solar installer?

The MCS website has a handy database where you can search for certified installers by their name and location – just pop in their details and the site will

confirm if they're registered, as well as their unique Certification Number. How do you get your MCS certificate for your solar panels?

.

Do I need a building regulations certificate for my solar panel system?

You should receive a building regulations certificate, known as a completion certificate, for your solar panel system. This certificate will assure you and any future owners that the work met all building regulations, which will make it much easier to sell your property at any point.
