

Humless home power backup

Overview

How much power does a humless home system provide?

At 30 kWh, the Universal 30 is able to power your home's essentials for several days. If paired with solar and/or a generator, the system will store and provide a virtually endless power supply. The Humless Home Systems work on and/or off grid! You can now load shift, export to the grid and have a system that always works when the power goes out.

Is the humless Sentinel better than other portable power packs?

After purchasing and comparing a good number of portable power systems, the Humless Sentinel (now called) the Humless Go Mini) is the one I look to as my first line backup and emergency power source. Here are some of the key benefits as to why the Humless Go Mini should be considered over other portable "solar generator" type battery power packs.

How long does a humless system take?

The Humless solutions do everything you might need out of an ESS (Energy Storage System). This big system has enough power to take a cabin completely off-grid or power a residential home's essential loads for an extended period of time. The Universal 30 system is built to order. The typical turnaround time is 4 to 6 weeks.

Why should you buy a humless go mini?

Here are some of the key benefits as to why the Humless Go Mini should be considered over other portable "solar generator" type battery power packs. The main "plus" is what's at the heart of the Go Mini, the Lithium Iron Phosphate (LiFePo4) battery.
