

# Inflation reduction act 2023 solar panels

## Overview

---

The ITC will cut the cost of installing rooftop solar for a home by 30%, or more than \$7,500 for an average system. By helping Americans get solar on their roofs, these tax credits will help millions more families unlock an additional average savings of \$9,000 on their electricity bills over the life of the system. How does the Inflation Reduction Act affect solar?

The Inflation Reduction Act is increasing access to solar by: Incentivizing solar deployment in underserved communities: The Inflation Reduction Act enacts ten years of Production Tax Credits (PTC) and Investment Tax Credits (ITC) for clean energy technologies, including solar.

What happened to the solar investment tax credit?

Solar Investment Tax Credit: What Changed?

President Biden signed the Inflation Reduction Act into law on Tuesday, August 16, 2022. One of the many things this act accomplishes is the expansion of the Federal Tax Credit for Solar Photovoltaics, also known as the Investment Tax Credit (ITC).

What is the inflation reduction act?

FS-2023-21, Sept. 2023 — The Inflation Reduction Act provides for an increase to the energy investment credit (under Internal Revenue Code Section 48) for qualifying solar and wind facilities benefitting certain low-income communities.

Will the inflation reduction act reduce electricity rates?

Clean energy deployment from both the Inflation Reduction Act and the Bipartisan Infrastructure Law is projected to cut electricity rates by as much as 9 percent by 2030. In addition, the Inflation Reduction Act establishes several consumer-focused programs through tax credits and rebates to help families lower their home energy bills even further.

What is the new solar tax credit for 2033 & 2034?

That will decrease to 26% for systems installed in 2033 and to 22% for systems installed in 2034. If you've already installed a system in 2022, your tax credit has increased from 22% to 30% if you haven't already claimed it. The solar+storage equipment expenses included in the ITC have expanded.

What tax credits are available under the inflation reduction act?

The Inflation Reduction Act allows tax-exempt and governmental entities to receive elective payments for 12 clean energy tax credits, including the major Investment and Production Tax (45 and 48) credits, as well as tax credits for electric vehicles and charging stations.
