

# **Installation of photovoltaic panel waterproofing strips**

## Overview

---

Can a PV field be connected to a gutter?

When installing all the way to the eaves, the PV field can be connected directly to the gutter with a waterproofing strip or a drip flashing. N.B.: the drip flashing isn't included in the GSE kit B Raccord à la gouttière. Junction to the gutter Laying of the waterproofing strip on: Slate: Other tiles: 3 Junction to the lower roofing elements.

How to install a PV field?

BOTTOM: the butyl strip of 10cm is laid on the tiles. When installing all the way to the eaves, the PV field can be connected directly to the gutter with a waterproofing strip or a drip flashing. Assemble the other half-frames laterally thanks to the ergot and vertically. Fix them the same way than described in 1.

What is in-roof solar integrated roof tile installation manual?

In-roof Solar Integrated Roof Tile Installation Manual 1. INTRODUCTION In-roof solar modules consist of a series of electrically interconnected crystalline silicon solar cells, which are permanently encapsulated between a tempered glass superstrate and substrate.

How do you mount a solar panel to a roof?

There are three main ways to mount the solar framework to the roof; 1. Ballasted (weighted) Installation In a ballasted installation, the PV array is not fixed to the roof but is held in place by weights, often concrete blocks.

Who can install and maintain in-roof solar modules?

Installation and maintenance of in-roof solar modules may only be carried out by trained personnel. If you require further information, contact your supplier or or local Wienerberger representative. Please ensure both the installer and owner of the PV system have access to this installation guide for future

reference.

How do I replace a PV panel?

PLACING A MODuLE1/ Power off the PV INSTALLATION.2/ Remove the clamps from the panel to be replaced.3/ Disconnect the earthing connection and disconnect it from the string. 4/ Take out the panel that needs to be changed and replace it with the new one. 5/ Connect the new panel to the earth a ct it to the string. 6/ pu
