

Is it illegal to install solar power on the terrace

Overview

Are solar panels legal?

However, it's crucial to understand that while installing solar panels is legal, certain conditions must be met. For most domestic properties, solar panel installations are considered a "permitted development" and do not require planning permission, provided they respect certain size criteria.

Where should solar panels be installed on a terraced house?

On terraced houses, because of the limited space, the solar panels will need to be installed either on the front or the back of the property. One thing you should consider when making this decision is not the aesthetics, but the side of the roof that will get the most sun.

Can solar power be installed on a terraced house?

So, the simple answer to the question, is yes! But what are the considerations?

Terraced houses typically have less roof space than a semi-detached or detached property, especially when the space is also occupied with a chimney. This means that some of the larger solar power systems, with an output above 5kw, simply won't fit in the space.

Can I install solar panels if I don't meet building regulations?

Your local authority can also apply for a Confiscation Order to take away any money you've earned with your system – so there's absolutely no benefit to installing solar panels that don't meet building regulations. It's crucial that your solar installation follows all building regulations.

Can solar panels be built without permission?

This is because they generally fall under permitted development rights, which allow homeowners to make reasonably sized changes without getting

permission. The exceptions to this rule are typically flats, listed buildings, homes in conservation areas, and ground-mounted installations. What are the building regulations for solar panels?

.

Do I need planning permission to install solar panels?

However, make sure you follow all building regulations and apply for planning permission if necessary, as your neighbour could report your installation to the local authority if you don't - which could result in your panels having to come down.
