

Is it okay to install photovoltaic panels on glass roofs

Overview

Yes, you can install solar panels on your conservatory roof and it's an almost identical process to installing them on the roof of your home — if your conservatory has a solid roof. Solar panels on glass roofs are typically smaller however, because it's often too risky to install the solar panels meant for solid roofs on glass.

The average cost of a 3.5 kW solar panel system is £7,026, which will typically have a break-even point of 15.66 years. This is because of the high cost.

Combining solar panels with your conservatory can be worth it, but if you can install a system large enough to meet your needs on your roof, you might want to consider that instead. If that's not possible and your conservatory is.

Is it okay to install photovoltaic panels on glass roofs

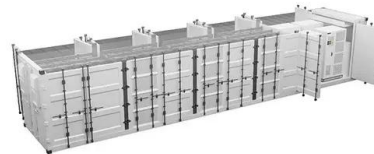

[Installing Solar Panels on a Fibreglass Roof](#)

Installing solar panels on a roof is an efficient way to harness renewable energy and reduce your carbon footprint. Pitched slate or tile roofs are commonly used for Solar PV installations ...
