

# **Jinpu solar bracket installation diagram**

## Overview

---

Where should Jinko Solar PV modules be installed?

In most applications, Jinko Solar PV modules should be installed in a location where they will receive maximum sunlight throughout the year. In the Northern Hemisphere, the module should typically face south, and in the Southern Hemisphere, the modules should typically.

Can JinkoSolar PV modules be installed near the seashore?

Operation in permanent shading conditions is not recommended. Do not install the PV module near open flame or flammable materials. JinkoSolar PV modules have passed the IEC 61701 salt spray corrosion test. PV modules can be installed at a distance of 50m away from the seashore.

Can JinkoSolar PV modules be installed in permanent shading conditions?

Operation in permanent shading conditions is not recommended. Do not install the PV module near open flame or flammable materials. JinkoSolar PV modules have passed the IEC 61701 salt spray corrosion test (test method 6). PV modules can be installed at a distance of 50m away from the seashore.

Can Jinko Solar modules be mated together?

Connectors and bypass diodes from different manufacturers should not be mated together. If such replacement is needed, please contact JinkoSolar. 4. Maintenance and Care It is required to perform regular inspection and maintenance of the modules, especially during the warranty period.

Can I drill a hole in a Jinko module?

Do not drill holes in the frame without authorization from Jinko, which may cause corrosion or other negative effects to the module. Thermal expansion and cold contraction effect occur on the modules. During installation, the interval between two adjacent modules must be  $\geq 10\text{mm}$ .

What should I know about Jinko Solar?

actions. Do not remove any part installed by Jinko Solar or disassemble the module. All instructions should be read and understood before attempting to install, wire, operate and maintain the module. Don't lift up PV modules using the attached cables or the junction box. All PV systems must be ground
