

Lat pulldown attachment pulley system for power racks

Overview

What is the power rack lat pulldown attachment?

Learn more to your arsenal with the Power Rack Lat Pulldown Attachment. A multi-purpose pulley system that attaches to the back of your rack allowing you to do seated rows, lat pulldowns, biceps curls, and hundreds of other cable-based exercises.

What is a fitness reality power rack with lat pulldown?

The Fitness Reality Power Rack with Lat Pulldown is a great addition to anyone's home gym that is getting serious about their strength training. Included with this monster lat pulldown machine are a 39" lat bar and a 20' low row bar paired with a high and low pulley system.

What is a lat pulldown/Low Row attachment?

The lat pulldown/low row attachment is a feature of the power rack. It comes with a chrome plated rail for smooth motion and a 44" lat bar that provides an extra wide grip advantage. The weight cap for the lat pulldown is higher than most at 360 lbs.

What is a lat pull-down machine?

It combines the use of free weights with barbell exercises with more fixed resistance exercises through the use of a cable machine. Additionally, having a lat pull-down machine on your power rack is a great way to save space in your home gym.

What are the best lat pulldown attachments?

Another top lat pulldown attachment to add to your collection is the lat pulldown bar with handles by Power Systems. This bar adds another dimension to lat rows. The added end grips give you a different angle and a more natural grip for wide rows, but also includes padded grips for narrow grip rows or pulldowns.

What is the best power rack with lat pulldown?

The X-Class Light Commercial High Capacity Olympic Power Cage by Fitness Reality is one of the strongest power racks available with a lat pulldown feature. It can handle intense workouts. However, it comes with a higher price tag.
