

# Leading photovoltaic energy storage convertible bonds

## Overview

---

How much will TCL Zhonghuan invest in a convertible bond?

Image: Unsplash Chinese solar PV components manufacturer TCL Zhonghuan plans to issue up to RMB13.8 billion (US\$2 billion) convertible bonds, with the funds to be used for its 35GW annual capacity ultra-thin high-purity mono silicon wafer and 25GW n-type tunnel oxide passivated contact (TOPCon) 4.0 highly-efficient solar cell plants.

How will the Neoen's Green convertible bonds work?

Proceeds of the Neoen's green convertible bonds will be allocated to finance or refinance renewable energy production (solar PV, wind power) or storage activities in consistency with EU taxonomy requirements and with the Framework released yesterday and available on its website.

What's happening with solar panels & polysilicon?

Module prices have dipped to \$0.096 per Watt, the lowest level ever, while polysilicon at \$4.7 per kilogram is below production cost. Most solar manufacturers are expected to report losses this year, their convertible bonds are showing signs of weakness, and some will not survive this cycle. BNEF clients can access the full report [here](#).

Why did Siemens Energy issue a mandatory convertible bond?

The issuance of the notes is one component of these announced equity measures. "The swift and successful placement of the mandatory convertible bond indicates institutional investors' confidence and belief in our overarching Siemens Energy strategy," said Maria Ferraro, CFO of Siemens Energy.

What is the difference between photovoltaic product business and smart energy business?

Photovoltaic product business generally covers the R&D, manufacturing and sales of photovoltaic modules; photovoltaic system business includes

photovoltaic power stations and system products; and smart energy business involves intelligent micro grid, multi-energy systems, and photovoltaic power generation, operation and maintenance.

Who is the most influential photovoltaic EPC Company in China?

During the reporting period, Trinasolar was awarded as the most influential photovoltaic EPC company and the most influential photovoltaic operation and maintenance company at the Solarbe Solar Industry Summit & Awards in 2023, and led the "Top 100 Photovoltaic Companies of Intelligent Operation and Maintenance" in China in 2023. 2.1.3.
