How to Get Beehive in Lethal Company , Tips & Guide

When playing co-op in Lethal Company, you can have your friend take the aggro of Circuit Bees while you run away with the beehive. Before you attempt this, make sure to store all your items away in the ship so that you have low weight to boost your movement speed.

Steam Community :: Guide :: The Art of Stealing Beehives

If you have managed to successfully steal the hive, remain vigilant, victory is still far from your grasp. Once their precious hive has been taken, the bees shall descend into chaos, their fury unbounded, my master, Sun Tzu (god rest his soul) once said they will be "OFF THE PERC". beware, avoid their path at any cost and retreat to your ship.

Were bees buffed? :: Lethal Company General Discussions

Ever since the update hives have felt much harder to run now. Used to be able to run them solo by pulling them away first, but now even when using TZP they catch up and zap you almost instantly. Could just be bad luck or placebo from the handful of times I've tried this update, but it's felt oddly consistent.

Lethal Company: How to Steal Bee Hives & Avoid Circuit Bees

In conclusion, you can steal Bee Hives in Lethal Company by having one player bait the bees and keep them occupied, while the other player takes the hive and makes a run for it. It can seem fairly risky but it becomes easier after practicing a few times and it's a great way to make extra money before leaving a Moon.

Bee Hive

Description [edit] The Bee Hive is home to Circuit Bees. Strategy [edit] The most optimal way to steal hives is to have one employee distract the Circuit Bees while the other grabs the hive; it's possible for the bait employee to escape the bees by weaving through trees/terrain, however it is crucial that you get to the ship before you run out of stamina as ...
