

Letter of Intent for Photovoltaic Panel Installation Cooperation

Overview

An LOI typically specifies the duration of two or three sequential terms, which are sometimes called phases or periods. The first term is typically called the option term, development term, or due diligence term. This usually lasts up to 18 months but may need to be extended. During this term, the developer will engage in.

You will receive payments of differing amounts in all three terms. The payments increase with each successive term. An LOI will specify what you will receive in each term, and the.

The presence of a solar farm can increase your property's value, and thus your property taxes. A solar developer will generally pay for at least.

Many LOIs include a diagram (a "site layout" or "site plan") of where the developer expects to build the solar farm (the "project") on your property. It may also indicate where, for.

When the lease term ends, most developers will want to replace the old solar panels and continue operating the solar farm. Whether you.
