

Lockheed martin energy storage linkedin

Overview

What is Lockheed Martin energy?

Lockheed Martin Energy is a line of business within Lockheed Martin that delivers comprehensive solutions across the energy industry to include demand-response, energy efficiency, energy storage, nuclear systems, tidal energy technologies and bioenergy generation. For additional information, visit our website:.

What does Lockheed Martin do?

Lockheed Martin has been awarded a contract to build the first megawatt-scale, long-duration energy storage system for the U.S. Department of Defense. Help optimize the human-machine team for our customers. Work in a tech-enabled, intelligent and flexible environment.

Are Lockheed Martin energy storage systems safe?

Lockheed Martin's GridStar Lithium turnkey energy storage systems are compact, easy to install, and scalable for 100 kW to multi-MW projects. Additionally, the systems have received the important product safety certification UL 9540.

Where is Lockheed Martin located?

Headquartered in Bethesda, Maryland, Lockheed Martin is a global security and aerospace company principally engaged in the research, design, development, manufacture, integration and sustainment of advanced technology systems, products and services.

Why did Lockheed Martin develop gridstar® flow?

For over 86 years, Lockheed Martin has invested in resilient, smart and safe energy technologies. As the clean energy evolution continues, the current dominant technologies cannot provide the durable, flexible and distributed energy storage required to sustain power for extended durations. That's why

we developed GridStar® Flow.

Who is the CEO of Lockheed Martin Corporation?

James D. Taiclet; Chairman, President & CEO; Lockheed Martin Corporation
Maria Ricciardone Lee; VP of IR; Lockheed Martin Corporation
David Egon Strauss; Research Analyst; Barclays Bank PLC, Research Division
Douglas Stuart Harned; SVP and Senior Analyst; Sanford C. Bernstein & Co., LLC.,
Research Division
