Which solar panel is right for my Boat?

Solar panels are a great way to give your boat energy and power. The Renogy Solar Panels for Boats (our favorite) has panels that are compact, reliable, and built to last with corrosion-resistant aluminum frames and low-iron-tempered glass. Keep reading and learn which solar panel is right for your boat!.

Where can I buy marine solar panels?

You can purchase marine solar panels directly from us and build up your own solar power system, or speak to our team of wind and solar experts about planning your energy needs for your trip to ensure your power system reliability.

Why should you use marine solar panels?

It is important to use marine solar panels to ensure that you have a system designed to withstand the harsh conditions at sea. Flexible solar panels can be used to create a flush finish and can even be walked on, or solid framed glass panels can be used for a higher power density and for extra mounting options.

How do marine solar panels work?

All four elements are placed between two conductive layers that can be made of glass, steel, aluminum, or plastic. Then, electrodes are put on the front, as well as the back, of the material in order to catch electrical currents. Marine solar panels represent a good option to make sure that the electrical system always has enough power.

Are marine solar panels suitable for cruising?

Marine solar panels rated 40W and under are suitable for weekend cruising, and keeping 12V batteries topped up. Low-profile and flexible panels are ideal where space is at a premium. If you can't see exactly what you need please

contact us – we can customise any kit to suit your requirements.

Are marine solar panels eco-friendly?

Besides being very easy to maintain, a solar panel can save you in the unfortunate situation your engine breaks down and you remain without any power. Marine solar panels are eco-friendly because they use renewable energy. If you are an environmentalist, you can do your part in saving the planet by using this type of energy.
