

# **Micro photovoltaic inverter industry chain**

## Overview

---

How is the solar PV inverter market segmented?

By inverter type, the market is segmented into central inverters, string inverters, and micro-inverters. By application, the market is segmented into residential, commercial and industrial, and utility-scale. The report also covers the market size and forecasts for solar PV inverters across major regions.

What is the global PV inverter market size?

The global PV inverter market size was estimated at USD 13.09 billion in 2023 and is expected to expand at a compound annual growth rate (CAGR) of 18.3% from 2024 to 2030.

What is the global micro inverter market size in 2022?

The global micro inverter market size was USD 3.80 Billion in 2022 and is expected to register a rapid revenue CAGR of 19.8% during the forecast period. Rising demand for micro inverters owing to their remote monitoring capacities in commercial and residential sectors is the primary factor driving market revenue growth.

What is the target market for micro inverter?

With its most recent solution offerings, the company aims to target residential, commercial, industrial, and agricultural industries. The Europe market is expected to account for considerably large revenue share in the global micro inverter market over the forecast period.

How is the global micro inverter market segmented?

Based on distribution channel, the global micro inverter market is segmented into direct sales, distribution, and online retail. The online retail segment is expected to register steadily fast revenue growth rate in the global micro inverter market during the forecast period.

Which country has the largest PV inverter market in 2023?

The U.S. emerged as the largest market in North America in 2023. It is a significant market for different types of PV inverters. Some recent inverter trends in the U.S. include an increase in the sizes of central inverters (1.5 MW plus) and three-phase string inverters (60 kW).

### Home Energy Storage (Stackable system)

High Efficiency

Easy installation

Safe and Reliable

Perfect Compatibility

**Product Introduction**

- Scalable from 10 kWh to 50 kWh
- Self-Consumption Optimizer
- Integrated with inverter to avoid the compatibility problem
- LFP battery, safest and long cycle life
- Stackable design for easy installation
- Capable of High-Powered Emergency-Backup and Off-Grid Function
