

Monolithic power system

Overview

Monolithic Power Systems is headquartered in Kirkland, Washington. The company designs, develops, and markets for communications, storage and computing, consumer electronics, industrial, and automotive markets, in addition to supporting the electrification of transportation. Monolithic Power Systems markets its products through third-party distributors and value-added resellers.

Monolithic Power Systems ist im Bereich der Elektronik tätig. Die Kernkompetenzen liegen in der Entwicklung, Herstellung und Vermarktung von integrierten Schaltkreisen. Diese integrierten Schaltkreise, auch bekannt als Power Solutions, werden in verschiedenen elektronischen Geräten

verwendet, um die Stromversorgung zu regeln und die Energieeffizienz zu verbessern.

Powering the Next Sophisticated AI System

The challenge facing AI power system designers is multi-faceted. Delivering kilowatts of power is the first challenge, and efficiency is absolutely critical. To learn, these computing systems are complex loads that run at full power. As the activity drops, so does
