

Moroccan agency for solar energy masen

Overview

Masen, the Moroccan Agency for Sustainable Energy, is a privately owned Moroccan company with public funding. It was created in 2010 to lead the Moroccan solar project to generate electricity from solar power by installing a minimum capacity of 2,000 MW by 2020 (the Noor Plan). In 2016, Masen became the Moroccan Agency for Sustainable Energy. Its remit was extended t.

Who is Masen solar?

Masen, the Moroccan Agency for Sustainable Energy, is a privately owned Moroccan company with public funding. It was created in 2010 to lead the Moroccan solar project to generate electricity from solar power by installing a minimum capacity of 2,000 MW by 2020 (the Noor Plan).

What is the National Agency for solar energy in Morocco?

The law 57.09 voted in January 2010 creates the National Agency for Solar Energy, a leading institution to promote and manage the solar energy sector in Morocco. The agency will be entrusted with coordinating the National Integrated Project for Solar Electricity Production.

How does Masen generate clean electricity?

Masen generates clean electricity through integrated renewable energy projects. Harnessing these resources aims at making the best use of solar, wind and hydraulic, initially, and any other type of renewable energy that could be relevant to the country (such as biomass, for example).

What is Masen's Noor plan?

Masen develops integrated energy projects (renewable installations) under an agreement between the Moroccan state and Masen. The Noor plan, led by Masen, aims to develop a minimum capacity of 2,000 MW of solar power by 2020 (equivalent to 14 per cent of Morocco's total installed electricity capacity by this date).

What does Masen stand for?

The Moroccan Agency for Solar Energy (MASEN), is a public-private venture that has invited expressions of interest in the design, construction, operation, maintenance and financing of the first of the five planned solar power stations in the southern town of Ouarzazate. There are no jobs posted for this organization.

What is Masen & how does it work?

It will reduce the country's fossil fuel dependence by about 2.5 million tons of oil a year, and could eventually export renewable energy to neighbouring countries. Masen was created in 2010 to coordinate the solar development strategy of the country's renewable energy plan, alongside the National Office of Electricity and Potable Water.
