Overview

Who is solar wholesalers Mount Barker?

This business servicing Mt Barker is a local SME in the Solar Energy category. Solar Wholesalers is a South Australian owned company based in Mount Barker in the Adelaide Hills. We are a retailer of solar power systems in Adelaide and across most of regional South Australia.

What are the benefits of solar batteries in Mount Barker?

Solar batteries are incredibly helpful because they allow Mount Barker homeowners to store excess energy from their solar system. The excess energy may be used to power the home throughout the night, during blackouts or on cloudy days. Below are the other benefits that make solar batteries irresistible:.

Who is eligible for a solar rebate in Mount Barker?

Mount Barker residents are eligible for a solar incentive and solar rebates. They are: The Home Battery Scheme allows eligible low-income households to get a maximum loan or subsidy of \$2,000 when they install a solar battery. STCs can be exchanged for cash and are deducted from the cost of the solar system in Mount Barker.

Are solar wholesalers and inverter working together?

The two systems are working in harmony thanks to the Solar Wholesales installation team. This is an update to an initial review from 2017: Solar Wholesalers were great to deal with, the work was done quickly and the system has not had a single issue in the 7 years since it was installed. Inverter has been fine.

Are Fronius & SMA inverters the cheapest?

Fronius and SMA may not be the cheapest inverters on the market — but their reliability is second to none. All of our installers are well known to us: most are

full-time employees, and all have had a long relationship with us. I think this is a real advantage that Solar Wholesalers offers over other companies.

Are Sunny Boy solar inverters reliable?

We put much of this reliability down to the fact that we have always used Austrian-made Fronius inverters, German-made SMA Sunny Boy inverters and brands of solar panels that are made by Tier 1 manufacturers, such as Canadian Solar and Trina. Fronius and SMA may not be the cheapest inverters on the market — but their reliability is second to none.
