

Mtu power solutions

Overview

What does MTU do?

mtu systems power the largest yachts, the strongest tugboats and the biggest land vehicles and provide energy for the world's most important mission-critical applications. Through advanced solutions such as microgrids, we integrate renewable energies and manage the power needs of our customers.

What products does MTU offer?

The product portfolio includes mtu-brand high-speed engines and propulsion systems for ships, power generation, heavy land, rail and defence vehicles and for the oil and gas industry as well as diesel and gas systems and battery containers for mission critical, standby and continuous power, combined generation of heat and power, and microgrids.

What is MTU standby power?

mtu standby power solutions are engineered to maintain an uninterrupted flow of power in the event of a utility outage or grid failure. Our highly efficient continuous power solutions provide primary power for your operation. When used as part of a combined heat and power system (CHP), you receive the highest efficiency from your system.

What is a MTU gas generator?

mtu gas generator sets are fueled by natural gas, biogas or other gases and are perfect for a wide range of applications. Whether it's continuous, standby or prime power, power generation or combined heat and power production (CHP), mtu is the solution.

Where can I find more information about MTU solutions?

To learn more about our product and solution brand mtu visit [Rolls-Royce and Alpha Trains sign letter of intent](#). [Rolls-Royce and Lürssen agree to collaborate on Innotrans 2024: Rolls-Royce shows](#) .

What is MTU energypack?

The mtu EnergyPack improves the reliability and profitability of your microgrid. This scalable all-in-one solution stores electricity from any distributed power system – such as gensets, wind turbines, or solar panels – and delivers it when needed. mtu generator set containers are designed to provide unique flexibility wherever power is needed.

Mtu power solutions

Global Locations

The Business Unit Power Systems of Rolls-Royce provides world-class power solutions and complete life-cycle support under our product and solution brand mtu. Our headquarters are in Friedrichshafen, Germany. Our customers operate all over the world - often

Rolls-Royce Power Systems: Successful 1st half of 2024

Rolls-Royce Power Systems significantly increased its operating results, sales and order intake in the first half of 2024. This was driven in particular by business activities in the power generation segment, with strong demand for data centre equipment, growing

mtu EnergyPack QS

mtu EnergyPack QS: Versatile Power Distribution Solutions Transforming Energy Storage The mtu EnergyPack QS is engineered with exceptional versatility, designed to meet a wide range of use cases including peak shaving, renewable energy integration, self-consumption, frequency control, voltage regulation, load shifting, microgrid, and island operation.

Power Systems

We are making a significant contribution to the energy transition with environmentally-friendly technologies from our mtu product and solution brand. As leaders in standby power for safety-critical plants and in integrated drive and propulsion systems for ships and heavy-duty land vehicles, our customers know they can depend on us, and have been doing so for over 110 ...

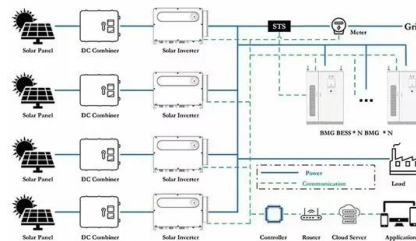

[Rolls-Royce Solutions America Inc.](#)

mtu is a product and solution brand of Rolls-Royce, providing world-class power solutions and complete life-cycle support. About Us What We do About Rolls-Royce Power System Digital Solutions Global Locations Innovation & Technology Power Generation

What We Do

Rolls-Royce provides world-class power solutions and complete life-cycle support under the product and solution brand mtu. Through digitalization and electrification, we develop drive and power generation solutions that are even cleaner and smarter and thus provide answers to the challenges posed by the rapidly growing societal demands for energy and mobility.

[Microgrid & Hybrid Solutions](#)

Microgrid solutions help sustain the future of energy and ensure reliable power supplies to meet customer demands. mtu microgrid solutions offers a wide variety of applications and service products, each individually designed to meet your specific needs.
