

Nevada energy storage incentives

Overview

NV Energy Storage Incentive Nevada is one of few states where it pays to purchase battery storage with your solar panels. NV Energy offers an incentive for energy storage devices when paired with solar: For customers with time-of-use rates, the utility offers up to \$3,000. For customers with the standard rate, the utility offers up to \$1,500. Does Nevada offer energy storage incentives?

Unfortunately, Nevada does not currently offer any statewide energy storage incentives. However, NV Energy, the state's largest utility company, has an advantageous battery incentive program for its customers who pair a battery with a solar panel system.

What is NV Energy's battery incentive program?

However, NV Energy, the state's largest utility company, has an advantageous battery incentive program for its customers who pair a battery with a solar panel system. NV Energy offers an upfront storage incentive of up to \$3,000 for homeowners who add a battery to their solar panel system.

How much does NV Energy charge for battery storage?

NV Energy offers two different home battery storage incentive rates depending on if you use a Time of Use (TOU) rate plan or not: TOU customers get \$0.19 per watt-hour of storage, up to \$3,000 Non-TOU customers get \$0.095 per watt-hour of storage, up to \$1,500.

Does Nevada offer a battery storage rebate?

While Nevada does not have a dedicated state rebate for solar panel installation, the state's largest utility does offer a battery storage rebate. NV Energy offers two different home battery storage incentive rates depending on if you use a Time of Use (TOU) rate plan or not: TOU customers get \$0.19 per watt-hour of storage, up to \$3,000.

Does NV Energy offer solar energy credits?

In Nevada, the vast majority of people use the utility company NV Energy for electricity. Per regulations, NV Energy must offer a nearly straight exchange of solar power for credits within the same billing cycle. Unused credits can roll over to the following month for 75% of the retail rate.

Does Nevada have a solar metering rebate?

Finally, in mid-2017, the Nevada legislature passed AB 405, restoring net metering for all residential customers. While Nevada does not have a dedicated state rebate for solar panel installation, the state's largest utility does offer a battery storage rebate.
